Re: Geared Media

The Gibson County Chamber of Commerce recently had the pleasure of working with Laci Tucker and Geared Media on a brochure for the Azalea Trail Project facilitated through the University of Southern Indiana.

Laci designed a very professional twelve panel brochure that will be distributed throughout Southern Indiana. We were extremely pleased with the creativity and quality of work that went into the design of the brochure. Laci has also assisted several fellow Chamber members with projects for their businesses.

Laci is a creative and original thinker and is also highly skilled at presentations and is at ease with personal and web-based communication.

It has been a pleasure to work with Laci on the Azalea Trail Project brochure and I would highly recommend Geared Media to anyone looking for high quality business items and professional personal service.

Sincerely,

Karen Thompson
Executive Director
Gibson County Chamber of Commerce
